PROPOSED GENERATING PLAN

ELECTRIFIES NEIGHBORS

At the July 20th Millbury Board of Selectmen's meeting, Joseph Harrington, vice president of power supply projects for New England Power Co. (NEP), notified the board that Millbury was one of six sites under consideration for the construction of a $30 million "peak load" generating facility. The site under consideration is part of a 200 acre parcel owned by NEP that lies between Grafton Street and Providence Road.

The announcement was greeted with concern from area residents who feel that the sulphur dioxide and nitrous oxide which would be emitted would aggravate pollution problems in the area.

At the August 11 Selectmen's meeting, some 20 residents turned out to voice their concerns over locating the site in an area of Millbury which already hosts Lewcott Corp., Polyclad Laminates, and the Millbury Sewage Treatment Plant. Residents expressed fears that any emissions from the proposed plant may increase pollution problems in the area.

Kathy Beckman, a spokesperson for NEP, stated that she was aware of the residents concerns. "I have spoken to residents myself," she said, "and though they were adamant, I can say they were all very pleasant."

She went on to emphasize that concerns may be a bit premature in that plans have not been finalized at this time and would not be before NEP completes its siting survey. "We are doing a study to see whether it would be more feasible to build big or to build a lot of little plants. What seems to be needed now are smaller plants that would generate from 11:00 to 4:00 in the afternoon that are the peak user hours. The study is to determine what we have to do – to see the needs and evaluate the sites," she said.

Residents also questioned why Millbury, which was not included on the original list of potential sites, was later added to the list. Ms. Beckman explained that when the original list was published it was with the understanding that some sites might be added and some on the list might be deleted. She added that Millbury did look like a "good site".

Ms. Beckman stated that New England Power wanted to notify public, state, and local officials at the same time, as a courtesy. "We didn't want the public to be the last to learn about it; we didn't want to play favorites."

According to Ms. Beckman, the study being done by NEP is to be a comprehensive one. "We want to be good neighbors," she said," We don't want to cause any undo environmental impact, and we want to take everything into consideration before a decision is made."

New England Power's Grafton Street power plant. The site under consideration for a new peak load plant is to the rear of the existing facility.

Residents gathered at the August 11th Selectmen's meeting to discuss issues surrounding the proposed site.

To that extent, it is anticipated that an environmental impact study will be done internally and most probably will have to be done as part of the licensing granting process. According to information she received from company engineers, "Air quality, emissions, and noise come under the Environmental Protection Agency and will be dealt with during the licensing part of the process." When questioned, Ms. Beckman said that the present site on Grafton street presently does not emit any pollutants.

With respect to noise emitted from the proposed generator, Ms. Beckman explained, "It will be no greater than 5 decibels over ambient noise levels. ("Ambient" is defined by the Department of Environmental Quality Engineering as the unconfined space occupied by the atmosphere above the geographical area of the district.) The DEQE standard is ten decibels, so the noise level would be well below their standard."

The "Fact Sheet" provided by New England Power defines the workings of a combustion turbine plant (Peak Load Plant) as follows: "A combustion turbine plant generates electricity with an engine that is similar to those used in jet airplanes. Instead of using steam to run the turbine, as is the case in most fossil fuel power plants, compressed air combined with combustion gasses drive the turbine. The combustion turbine that NEP is considering would have the capability of being fired wit either natural gas or light oil."

Ms. Beckman was asked to comment on thunderous "bangs" that come from the Cross Street substation. Neighbors have complained that the noise is so loud it rattles windows on their homes.

She explained that the sound occurs during switching processes at the Grafton Street site and that the frequency would not be increased should the generator be located there.

According to Ms. Beckman, the company currently anticipates no need for any land taking as the 200 acre site is adequate to accommodate the three acres necessary to house the proposed facility.

Another question of concern expressed at the August 11th Selectmen's Meeting dealt with the narrowness of Cross street. Ms. Beckman stated that part of the study being done by NEP will determine if Cross Street will have to be widened to allow the anticipated 2-3 truck loads per day of fuel oil to be delivered. Ms. Beckman added that Cross Street may not in fact be the selected route for oil deliveries.

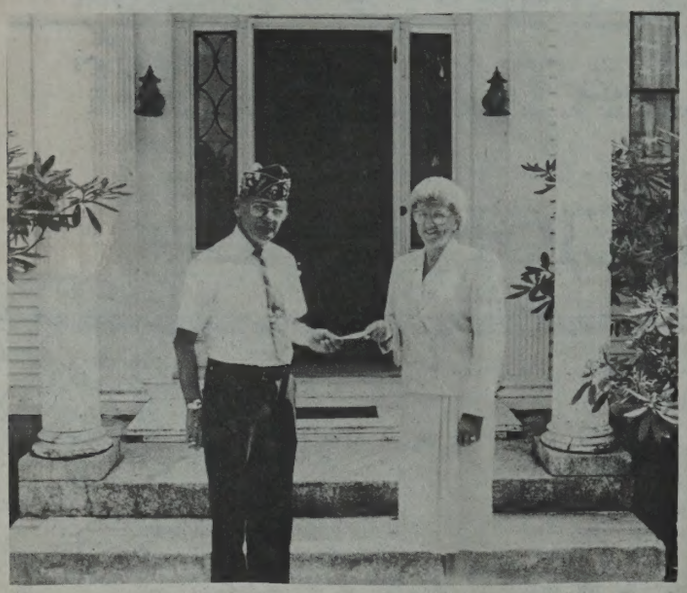
Ms. Beckman emphasized that though the Grafton Street site was attractive, "No decision has been made and nothing is carved in granite."

REWARD OFFERED

The Charles F. Minney Post is offering a $100.00 reward for information leading to the arrest and conviction of the person or persons responsible for the theft of both the American and V.F.W. flags in the Central Cemetery in Millbury.

Please contact the Millbury Police Department at 865-3521. All replies will be kept confidential.

MEMBERSHIP DRIVE GIVEN BOOST BY DONATION



Robert Weidman, Commander of the Charles F. Minney Post of the V.F.W., presents a $1,000 check to Betty Hamilton of the District Nursing Society to help launch the Society's Annual Membership Drive.

Millbury Selectmen's Meeting Digest

By Edward J. Cooney

AUGUST 11, 1987

Chairman Jude Cristo called the Meeting to order at 7:00 p.m.

– The first item on the Agenda concerned a formal complaint to the Dog Officer. Cristo opened the Public Hearing by reading the complaint which indicated that the dog in question was a public nuisance by reason of having a vicious disposition. Cristo then recognized Kim Allard and Mike Noel who were present to testify.

Dog Officer George Royal stated that Marie Squires, owner of the dog, had surrendered the dog but refused to sign papers. He noted that there is a $7.00 per day fee to be paid upon release of the dog. Royal went on to say that the individual who was bitten was able to identify the dog among 26 other dogs at the kennel. He also said that the same dog had bitten five other people previously when it lived on Elm Street.

Cristo read into the record a letter from Marie Squires (who did not attend the meeting) which stated, "Do what you have to do with my dog Sheba. I brought the dog to the shelter."

Noel then testified that he was walking his girlfriend home at 9:30 p.m. on August 4 when he was bitten by the dog.

Selectman Wynton Adams asked Royal if this was a chronic problem with this dog.

Royal replied, "Yes. I recommend it be put away after the ten days, and a charge of $7.00 per day plus a $25 disposal fee be imposed to reimburse Rufco Kennels."

Royal's wife stated that Sheba was not a problem at the kennel and was a "territorial dog". "If they had any sense, they would keep her in the yard."

Selectman Roland Lachance made a motion to have the dog destroyed, bill Marie Squires, and reimburse Rufco Kennels.

The motion carried on a 5–0 vote.

Royal then asked Chairman Cristo if they were going to appoint the Dog Officer at tonight's meeting. Cristo replied that they would discuss the issue later in the meeting and suggested that Royal return at 9:00 p.m.

– Earl Chase, town administrator, reported that Riverlin Street had been redone in areas that had a bad batch of bituminous concrete. He also noted that the labor costs for redoing those areas were absorbed by the original contractor.

– Chase informed the board that work on the installation of water mains by Mass American Water Works was progressing and that the Fire Chief had recommended installation of water hydrants at Millbury Terrace and Oak Terrace.

The board supported and approved the Fire Chief's recommendation on a motion by Adams (4–1), with one abstention.

– The board also approved (5–0) a recommendation by the Town Auditor to authorize $16,000 for payment to Browne Associates for the 1987 town audit.

– At 7:15, Cristo recognized Carol Perry, spokesperson for the Millbury Awareness Group. Mrs. Perry stated that during the talking stages of the proposed building of a peak load plant by New England Power Co. there was a request for citizen input. "Millbury is not an appropriate site. I wish to defer to Kathryn Marchand for further comments," said Mrs. Perry.

Mrs. Marchand stated that the power company wished to hear comments, both positive and negative, concerning their proposal for siting the plant in Millbury. She then read the following letter which was addressed to Mr. Harrington at New England Power:

"It has come to the attention of the citizens of Millbury that New England Power Co. is in the process of selecting a site for a new thirty million dollar generating plant. Our selectmen have been notified that Millbury is one of six sites under consideration. This news comes as no surprise to us. We are currently the site for the Upper Blackstone Valley Sewage Treatment Plant and a regional trash burning incinerator, (a topic of controversy at this moment in Boston, but for us a fait accompli). The list, alas, does not end there. We also host Lewcott Chemical and Polyclad Laminates, two chemical companies that utilize toxic chemicals in their operations, and who emit noxious odors that have been endured for years. By the by, there is also a sewage treatment plant for the town with various chemicals being emitted, almost directly across the street from said chemical plants.

"All of the above mentioned serve to diminish our quality of life, and indeed, threaten our health and well-being. It will be for our children and grandchildren to suffer the consequences and pay the price for our folly.

"Our population is about twelve thousand, with a part time volunteer fire department and a small police force and highway department. While they are hard working, dedicated, and do yeoman work, they cannot be expected to risk their health, maybe even their lives, should an explosion or fire occur in any one of these operations which could conceivably trigger a chain reaction and result in a conflagration because of their close proximity, nor should they be.

"One would be hard put to argue the point that Millbury has not done its part as a dumping ground for everything that other towns do not want in their own backyard. That argument will fall on deaf ears here.

Millbury Planning Board Hears Concerns Over Proposed Grafton Street Area Development

By Stevan Belair

The Millbury Planning Board, in accordance with their summer schedule of meeting once a month, convened on August 10th. Board member Lillian Moore conducted the meeting in the absence of Chairman Gary Swenson. Board member Anna Lewandowski was also absent.

As a consequence of only three board members being present, Town Planner, Christopher Nelson, announced that an 8:00 p.m. Agenda item requiring a special permit vote for a multi-family dwelling at 11 Glover Road would have to be postponed. Nelson explained that a special permit vote requires a minimum four member vote of the Planning Board. He then suggested that a Planning Board meeting be scheduled for August 24th and that the agenda item be rescheduled for the same time. The board members present agreed, and the concerned citizens who showed up for the meeting were informed of the change.

– At 8:00 p.m. an agenda item concerning the Oakwood Heights development off of Carousel Drive was discussed. Nelson explained that the basic plan defining the 76-lot development had been previously approved by the Planning Board in March. He stated that the item was on tonight's agenda to approve several amendments and corrections to the plan. The changes included a drainage plan, a shift of the roadway due to wetlands, specifying permanent open space, and the inclusion of some construction details. Nelson also stated that, because of the presence of wetlands, input and approval from the Conservation Commission would be required. By a unanimous 3-0 vote, the Board voted to accept the plan with the amendments and corrections.

– At 8:45, a plan to construct a 15 lot subdivision off of Grafton Street, called Westfield Village, was presented for public discussion. The developers are Wilfred Ezold and Michael Abodeely.

Jim Zingerelli, the engineer developing the subdivision plan, presented an overview and provided some of the construction details. Essentially, Westfield Village would occupy about 20 acres and be divided into 15 lots ranging in size from 32,000 square feet to 2 acres. Fourteen lots would contain single family dwellings and one lot would be set aside as open space because it contains wetlands. Two access roads into Westfield Village, Michael Drive and Ezold Avenue, would also be constructed off of Grafton Street.

HERE... THERE... EVERYWHERE
Bits 'n Pieces
... Joe Morin

HI FRIENDS!...It's been a few weeks since our last encounter but our vacations are over and we're off and ready to do our thing. First of all,

CONFUCIUS SAY: "He who looks for bargain and pays cheap price will get what he deserves." Ask Joe...he knows.

WHY ME, LORD! What have I done to deserve this? I speak of a bargain at a store on Route 20. There was this mulcher, you know that gadget that will take small branches, twigs and mulch the heck out of 'em! I picked one up marked "Down from $149 to $99". Gee, what a bargain! (or so I thought). At home we unpacked it and tried to put the legs and wheels together. Guess what? No bolts, screws or instruction booklet. Aw, what the heck, I had a few screws hanging around. Now, all set to go. Ran like mad to pick up a few twigs the size of pencils. I plugged in the unit, heard the motor click on, and the blades starting spinning. Action! Camera! We dropped in the twig, clunk, clunk, clunk! Nothing happened. The motor shut off and we got shafted. Again, the American consumer got it! How true that old axiom we get what we pay for! Back to the store on Route 20. They can take that mulcher and shove it (in the back room, of course).

ROLL OUT THE BARREL---We see where the U.S. Navy has ordered full-length ID photos to replace the head and shoulder ID card. It seems as though some of the officer's pot bellies are getting out of hand and the Navy wants to do something about it. Suck in that pot belly, sailor, and go on a diet! Anchors Aweigh - pot bellies away. Ho-Ho!

IT COULD only happen to me department. The car needed a gas line replaced. Took it to a station here in Millbury and left it off at 8:00 a.m. I was told it would take a couple of hours to take care of. Meanwhile, 11 a.m., no car; 12:00 p.m., no car; 1:00 p.m., no car; 2:00 p.m., no car. Got nervous and decided to call the garage. Dopey me didn't have the garage number. Called information but the station wasn't listed in the directory.

Finally I smartened up and called a taxi. The poor guy at the station was waiting for me to pick up the car. It was ready at 10 a.m. He thought I would be getting a ride from someone. He now has my number, and I, his.

ON THE ROAD TO MANDALAY....Not really. It was on the road to the Grafton Flea Market. We passed a construction site, condominium to be exact. The first thing that came to mind viewing this construction was a beehive. I have never seen a site so closely constructed, so tightly packed, as this unit. It seemed as though a giant bee, many giant bees, had a hand in this construction. Never seen anything like it before.

MEANWHILE, BACK at the Flea Market, we bumped into Dick Wunschel of Sutton who had a table set up at the market. He had his stuffed dinosaurs, alligators, and a few chipmunks and skunks thrown in. He was telling me about a woman who was looking over his menagerie. He asked her if she was interested in one of his stuffed skunks and she replied, "No way. I've got one at home. I married one." That broke me up.

A LOT OF SOUVENIRS are being offered for sale in different magazines and newspapers in connection with the 100th anniversary of the Statue of Liberty. One that caught my eye was a switchblade knife emblazoned with the words "Land of the Free!"---ridiculous.

I WISH HE WOULD CHANGE his tune....that ice cream vendor in town running around playing "It's a Small World after all". I mean, there's got to be another children's tune. How about "Zip-a-dee-doo-dah"?

THIS YOU WON'T BELIEVE....But I kid you not. I'm on my deck in the rear of the house, getting a little sun, a glass of Adam's Ale in one hand, just taking life a little easy. I see a bird, a Blue Jay to be exact, on the railing at the other end. The little bugger took off, made a flight over me and did a nasty thing. He got me right between the eyes. I didn't panic, didn't get excited. Went inside the house and got my water pistol which I always keep handy to shoo away strange cats. Dropped back in the chair waiting for another bombardment. He, or another one of his tribe, landed on the closer railing. I aimed, fired, got him right between the eyes. He took off and five minutes later a gang of them appeared. I fired and they took it all in stride. Evidently they passed the word that some ding-a-ling in town was offering free showers. They fluffed up their feathers after me pumping out water at them and finally took off. HEY, HOW ABOUT THIS ONE....A couple, 78 years of being happily married, was asked the secret of this 78 years of happiness. Evidently they each had a hearing impediment as both wore hearing aides. When an argument would ensue by either party, the other party would just turn their hearing aide off. What you don't hear won't hurt you they say. HOW ABOUT THAT GAL in Ontario who got

MORIN from Page 6

an injunction against her husband preventing him from smoking in the house; he had to or face a fine of $700 a day. It's hard to believe, but they say it's true.

WHEN WILL PEOPLE realize it's not how much you pay but how much you pray that really counts in your relationship with the Almighty! One thing that left a mark on us was an editorial photo in a local paper about a month ago. It was a picture of Christ with a crown of thorns. The crown was spelled out with the words "TV Evangelists". Some of them are truly a "Crown of Thorns".

A FLEA MARKET is scheduled on Labor Day at St. Mark's in Sutton. They say there are tables available for $10 if anyone out there is interested. Also, we see in the Parish bulletin an announcement that people should refrain from feeding their youngsters raisins to keep them quiet during the service. Raisins stick to the floor and could be a slippery proposition. Give 'em a lollipop instead. Good grief! No, I'm only kidding. I don't want Father Walsh on my back! But a lollipop is cleaner!

A LETTER to a paper's gardening editor asked what kind of bush should be planted near the corner of a house at a spot where the soil was exceptionally poor and stony and in the shade all day. A further problem was sludge leaking from a faulty gutter. The editor responded, "How about a nice flag pole?"

YOU'LL TURN TO STONE or salt if you gaze upon....from California they are supposed to be selling canned beer with a scratch-off label of a topless gal!....HOW ABOUT THIS ONE: You know those buglites they sell to ward off these little varmints, well evidently they cover quite an area. If your neighbor has invested in one across the street don't you; his buglite will attract all yours. That's what they say.

FINALLY, a mother, pounding away on the bottom of a ketchup bottle, heard the phone ring and asked her young son to answer it. Obligingly the boy answered and advised the caller, "Yes, she's here but she can't come to the phone right now 'cause she's hittin' the bottle." Life's embarrassing moments.

WE FORGOT to tell you about this story concerning our miniature Dachshund, PeeWee. A week ago we purchased a flea spray for the little guy. We called him over and began spraying him here and there and everywhere. It must have been a cold spray because he ran like mad under the bed. He wanted no part of being sprayed with this cold stuff. Last night it was time for another spray. PeeWee somehow connected spray with cold and he's been under the bed since.

The cat? Well, that's another story. I haven't seen him around since he got sprayed with the water pistol. That's for the birds!

WELL FRIENDS, enough of my rattlin' on. Just want to tell you it's nice to be back, missed you all. I certainly hope we managed to put a smile on your face, a snicker anyway. It was well worth the time and effort. We ask God's blessings on you and yours. Put your hands in His and certainly life will be worth living. Shalom and God Bless!

Your old pal,
Joe Morin

SEPTEMBER BLOOD PRESSURE CLINICS

MILLBURY. The Millbury District Nursing Society has announced the following Blood Pressure clinics for the month of September: Asa Waters Mansion, 123 Elm Street, on Tuesday, September 1, from 8:30 to 11:00 a.m., and Tuesday, September 15, from 3:00 to 5:00 p.m.; Linden Apartments, Pearl Street, on Wednesday, September 16, from 1:00 to 2:00 p.m.; Centerview Apartments (residents only) on Thursday, September 17, from 1:00 to 2:00 p.m.; Colonial Apartments, Colonial Drive, on Thursday, September 24, from 1:00 to 2:00 p.m.

SELECTMEN from Page 3

"We are realistic enough to recognize the need for more generation of electricity, but our backyard is full. Therefore, we strongly oppose any location for your planned facility in our town, and this letter is designed to advise and inform you of such. We wish you well, but not in Millbury. Enough is Enough."

Mrs. Marchand then provided the Board with a copy of the letter which was signed by 52 residents who live in the area of Grafton Street and Providence Road.

Cristo then stated that the letter seemed to sum up the feelings of the majority. He asked if there was anyone present to speak in favor of the plant.

Len Gagliardi, the only person present who spoke in favor, stated that he was part of the "silent majority". "There are certain factions against everything," he said. "They don't represent me. The town can't stand still. There is a vocal few who say they are speaking for all of us. But they are not."

Cristo stated that more information was needed but stressed that Millbury has done a lot to solve regional problems. "It concerns us as a town. We have been a forerunner in solving regional problems."

While acknowledging that there is a need for additional power, Cristo added, "One community cannot be asked to pick up all the problems. Maybe somebody else should help out."

Cristo's statements were met by applause.

Also speaking in opposition to the peak load plant was Bill Dodge, Grafton Street resident, who stated, "Millbury has done its part."

Cristo then noted that Millbury was not listed on the original fact sheet and suggested that the DEQE be contacted to provide information on the impact to the area.

Hilltop Drive resident, Joseph Bianculli, then spoke to the issue of stack emissions. He stated that he has had occasion to visit other plants and has seen yellow smoke containing sulfur dioxide coming from the stacks.

Bianculli then stated that the Selectmen do have options and he suggested that they consider them in order to have some control. He explained that a variance is not required for a stack in an Industrial I Zone. He mentioned that a zoning article change he had submitted last October at the town meeting, which was defeated by a 77 to 44 vote, had controls. He noted that only the Planning Board could bring back a defeated zoning article by-law with a two year limitation. He suggested that the Selectmen talk to the Planning Board. "If a variance is required, we would have some say in this," adding that it would have to be done quickly.

The last person to speak in opposition to the plant was Cross Street resident, Mrs. Martin, who stated that there were already two chemical plants and a sewerage treatment plant whose odors reach her backyard. She also stated that a major concern of hers involves the potential use of the narrow road (Cross Street) by oil trucks who would be traveling to the site.

The board agreed that further information was needed.

– At 7:30 p.m., the Selectmen discussed with Paul DiCicco a request for a Class II license to store and/or repair one classic car on his property. DiCicco stated that the vehicle would not be in view but garaged at the rear of his property in a barn-type structure he proposes to build.

Lachance stated that he had voted for similar requests in the past but could not vote for DiCicco's Class II license.

DiCicco then noted that there were other similar type permits in the area.

Lachance replied that he was sorry, now, that he had voted approval in the past for similar permits.

The Board then voted 4-1 against granting the license, with Cristo voting in favor.

The Selectmen informed DiCicco that he could appeal the denial by going to the Board of Appeals for a variance to the zoning by-law.

DiCicco stated, "I respect your vote. I am not upset by it. I know you are trying to do the best for the town."

– At 7:40, Hy Sclar, a member of the Dorothy Pond Restoration Committee, informed the Board that the dam at Little Dorothy Pond was leaking and washing out. Sclar stated that Highway Surveyor, Joe Chase, had sandbagged it and, if the Board would send him a letter of approval, he would stop the flow until funds were available.

Administrator Earl Chase said that there was water leaking through but "there was no washout." He also stated that the Highway Surveyor had stated that there was nothing he could do about it.

Sclar inquired if there were funds available to repair it. When he was informed that funds were not

SELECTMEN from Page 8

available, Sclar stated, "We can raise money to do it if we have to."

Cristo stated that he would take a look at it and noted that he had helped to fix the dam during a similar occurrence.

– At 7:50, the Board met with Barry Fiske, Senior Operations Manager of Barber Coleman, holder of the present maintenance contract for temperature controls for the heating, ventilation, and air conditioning systems at the town hall.

Fiske informed the Selectmen that his company was requesting an increase in the cost of the service contract from the present $1104 to $2350, noting that there had not been an increase in the past 13 years.

Cristo stated that the present system may be scrapped by this time next year because there have been continuous problems and complaints since the system was installed.

Fiske stated that there were two alternatives facing the board: 1. "Continue with us" or 2. "Take your chances."

When asked by Lachance "Why, after 13 years, are you asking for an increase?" Fiske responded, "We can't do business at 1974 prices. It is our own negligence. We have had a tendency to restrain increases to municipalities."

Adams suggested putting the contract out to bid. "We can see what is available in the marketplace. We might get someone close to us and save on mileage costs."

Selectman John Donnelly noted that it had been in the last two years that the company had serviced the system on such a frequent basis.

Cristo stated that the board would take the matter under consideration.

– At 8:00 p.m., the board met with Librarian, Rosemary Waltos and the Library's Board of Trustees to discuss their request for an additional part time assistant librarian for 15 hours per week to help cover the children's section. Ms. Waltos noted that the money for the position was in the budget.

Adams expressed concern about the yearly increases in the library's operating budget over the past 10 years.

Both the trustees and Ms. Waltos explained that the library's new addition and increases in circulation and programs were contributing factors, but that the budget was leveling off and they foresaw no future requests for additional positions.

Adams then stated that, while he supports the library, he is concerned about the effect the increased budget might have on the other town departments under the limitations imposed by Proposition 2 1/2.

After several minutes of discussion, the Selectmen approved the request for the new part-time position 5-0.

– Turning to "Old Business", the selectmen briefly discussed a possible appointment of a third member to the Personnel Board, but took no action.

– On the recommendation of Chief Brady, the Board voted 5-0 to appoint Mike Moore and Alan Gordon as Special Police who would be available for private duty detail.

– Cristo again recognized George Royal who informed the Board that, with the assistance of the Police Department, complaints had ceased concerning two dogs barking on West Main Street. He stated that the two dogs were not licensed and that a $10 fine should be levied on the owners. Royal suggested that the fines be collected at the town clerk's office when the dogs are licensed. He stated that other towns were doing it and that Millbury should follow and get out of the Worcester County Dog Control System.

The selectmen concurred and will investigate ways to accomplish Royal's suggestion.

A brief discussion ensued about having Royal notify the police when he cannot be available for calls. It was noted that the Assistant Dog Officer works a 3-11 shift and is not available during those hours.

Lachance suggested that the assistant be contacted and asked to meet with the board.

Royal also informed the board that in the past he had a good relationship with the Sutton Dog Officer, whereby each town provided back-up service for each other. However, he stated that the relationship was "killed" by a previous dog control study committee in Millbury.

The Selectmen suggested that Royal try to reestablish a mutual agreement with Sutton.

Lachance then stated, "We shouldn't even be talking with George. We haven't appointed a Dog Officer for this year yet." He then moved to reappoint Royal for 1987-88, which was approved on a 5-0 vote.

– In other action under "Old Business", the board:

1. Voted to notify the Historical Commission concerning a proposal for additional parking at the Asa Waters Estate.

2. Voted 5-0 to approve half payment for a survey of the Providence Street School parcel, as requested by Richard Courtney, the buyer of the property.

3. Discussed bids received for the redesign of the present heating and ventilation system at the town hall; the bids ranged from $4600 to $18,000. He stated that Burke's Engineering was the only company to submit a bid covering all the requirements. The Selectmen will serve as a design selection committee.

4. Voted 5-0 to appoint Susan Carlson to develop an architectural proposal for grant administration of the restoration of the Asa WAters Mansion at an hourly rate of $40, not to exceed $2,000.

5. Referred to Safety Officer, Edward Perry, a request for a cross-walk on West Main Street.

Under "New Business", the Selectmen voted the following:

1. 3-2 to approve a request by Commonwealth Gas to open a street at Park Hill and Johnson Street.

2. 4-1 to approve an opening by Commonwealth Gas for street openings at 303 Millbury Avenue and 11 Lincoln Street.

3. 5-0 to approve a request by Wilczynski and Ricker to use the access road to the Public Parking Lot for the installation of steel trusses on August 19.

4. Referred to the Safety Officer, for review and recommendation, a request to make Grove Street a two-way street in order to gain access to Main Street from the parking lot.

Millbury Public Schools Announce Bus Routes

The Millbury Public Schools have announced the bus routes for the 1987–88 school year.

The first day of school will be Wednesday, September 2, 1987. All students who will be taking buses are asked to be at their respective bus stops in advance of the times listed for their routes. Children attending the morning Kindergarten will come to school on the regular buses unless they have been notified otherwise. They will be dismissed at 11:30 a.m. and come home on a Kindergarten bus. Children attending the afternoon session of Kindergarten will come to school on Kindergarten buses. These bus routes will start at approximately 11:45 a.m. and travel the regular bus routes. After a few days, a more definite schedule will be set up for the Kindergarten noontime buses.

There's A Place For You In The Millbury School System

The Millbury School Connection is, as the name implies, a connection between the Millbury school system and the community it serves. This organization is inviting men and women to contribute their time and talents in a variety of ways. Some of these ways include working in the library, helping in the office, assisting classroom teachers, or demonstrating a special interest or talent.

Recently, Dr. Alfred Sylvia, Superintendent of Schools, called together a task force to review the overall curriculum. One of the recommendations to come out of that review was to establish an active volunteer program. The School Committee also greeted the idea with enthusiasm and gave their permission to begin in the Fall.

Parents of school children, senior citizens, members of the business community, or anyone who feels they have time and energy to contribute in some way are all needed for this program to succeed.

Our next meeting will be held on August 24, at 7:00 p.m. at the Town Hall.

Share the joy of learning. Volunteer!

Governor Proclaims September 25–October 4 Blackstone Valley Heritage Homecoming Week

Boston. Lt. Governor Evelyn F. Murphy recently presented the Governor's Proclamation of "Blackstone Valley Heritage Homecoming Week" to members of the Heritage Homecoming Planning Committee. The celebration is scheduled for September 25–October 4. Shown above: (left to right): Marian Baker, Helen Sharkey, Rep. Richard T. Moore (D–Uxbridge), Chairman; Margaret M. Carroll, Vice President; Kathleen Burke McNamara; Mary Cassidy, Leona Dona, John R. "Skip" Doubleday, President, Hugh Dugas, Michelle Roberts, Edward Furphy, Mary Arakelian, Vice President; Rita LaBonne, Shirley Cleaves, Secretary; James Cleaves, and Sen. Louis P.Bertonazzi.

pH Soil Testing

Summer is coming to a close making it time for that fall application of lime to be applied to your lawn and gardens. Lime will bring the naturally acidic pH of Massachusetts soil up to the level more desirable for plant growth. The majority of vegetables, flowers and lawns need a pH between 6.0 and 6.5, whereas blueberries, rhododendrons, and azaleas would need a much lower or acidic pH of about 4.8–5.0. By maintaining the correct pH of your soils, you will not only promote better plant growth but the fertilizer you apply will be more readily available to these plants.

Have your soil tested and find out what your soil's pH is and how much lime you need. Buck Hill Conservation Center in cooperation with Worcester County Cooperative Extension will be testing during the months of August, September and October. There is a $2.00 charge per sample with checks made payable to Buck Hill Conservation Education Center. Samples should be mailed or brought to the Worcester County Cooperative Extension office, 759 Main Street, Leicester, MA 01524–0248. General fertilizer recommendations will also be given with your results.

For further information and instructions on how to take a soil sample, please contact Worcester County Cooperative Extension at 892–1116.

Millbury COA News

By Judith O'Connor

FALL FOLIAGE: Day Trip on October 1st with lunch at the Bull Run restaurant. A foliage side trip will be available to Bolton Orchard. Cost of trip is $15.00 per person. Only one bus will be available so please sign up early.

RED SOX GAME: We will be traveling to Boston to see the Red Sox vs. Minn. on August 23rd with seating in Section 11. The cost of the trip is $12.50 per person and we will be leaving the Mansion at 11:30 a.m. Those who have not paid are asked to do so at the COA office.

ATLANTIC CITY: A three-day Atlantic City trip is planned for October 8,9, and 10. The tour includes the following: 2 nights at the Sands Hotel, 2 dinners, $10 in quarters, round trip via motor coach, all taxes, baggage handling and service charges. The cost is $143.00 per person (twin). For those who have already signed up for this trip, we need a deposit of $25.00 to hold your place. The Sands is a casino hotel with a health club, indoor pool, sauna, shops, etc.

NEWS RELEASE FROM PASKI'S ON THE TOWN....A transportation program for the physically challenged and senior citizens – evenings and weekends. A three day advance notice is needed. Hours of operation are as follows: Wednesday and Thursday, 6:00 p.m. to 11:00 p.m.; Friday, 6:00 p.m. to 12:00 a.m.; Saturday, 2:00 p.m. to 12:00 a.m.; Sunday, 10:00 a.m. to 10:00 p.m. Prices are $3.00 for one way, $5.00 for round trip. For reservations call 753-4064.

TRANSPORTATION PROGRAM: We provide transportation rides as follows: Medical, Monday through Thursday, 9:00 a.m. to 3:00 p.m.; Thursday, general dial-a-ride, 9:00 a.m. to 3:00 p.m.;
Friday, shopping 9:00 a.m.. Activities at the Senior Center daily.

All transportation requests must be made through the Council on Aging office with at least a 24 hour advance request. We must note this is on a 1st come basis due to the increasing number of clients using this program. A reminder that if you are taken to an appointment in the Blue Van you may be picked up in the White Van. Please look for the vans and be ready for them. Also, if you must cancel you must do so by calling the COA office as soon as possible.

Assumption School To Open On September 1st

MILLBURY. Assumption School, 21 Grove Street, will be opening on Tuesday, September 1, 1987, at 8:45 a.m.

Students must bring a lunch and beverage as no hot lunches will be served on this day.

NEWLY ENLARGED FACILITIES

On The Shelf

By Rosemary Wallos

It takes many people to make a public library run. The Trustees, staff, volunteers and various departments and officials in Town all contribute in bringing you the full range of reading, informational, listening and viewing services offered by the Millbury Public Library.

Throughout the year, particularly this summer, the library has been lucky to have a great team of volunteers that have donated their time and energy to work at the library in a variety of ways. They have been involved in special projects, programs, and activities. They have also covered various stations in the Library in a staffing pinch.

There are always several special projects cooking up in the library at any one time. This summer started with an all out effort to update the library's registration files, a time consuming, laborious job that requires patience and accuracy. The library was fortunate to enlist the services of Zoe White and Joyce Cofsky to help out with this task. Because of their efforts this summer, we hope to be able to computerize our registration files in the near future. In the past, Barbara Hall has also been helpful in this project as well as helping out with many a sticky problem at the circulation desk.

In the children's room, the library depends greatly on volunteers to help conduct a wide range of programs and activities for youngsters. This summer, one of our busiest on record, we had the help of several young volunteers that proved indispensable to Children's Librarian, Elaine Loehmann. Early in the summer, Kristin Boire and Kristin Jalbert started volunteering to help decorate the children's room for the summer programs and prepare handouts for the reading clubs. Their Haunted House creation was a big hit with reading club members all summer long.

The Library offered two reading clubs in addition to preschool story hour this summer that kept the children's room hopping every day of the week. Beth Caisse, Carrie DeCoteau and Beth Horner help in preparing and conducting the programs and activities involved with story hour and the reading clubs. Beth is also responsible for our August wall-size calendar that decorates the children's room.

Like last year, the library offered its Audio Visual Licensing Course that teaches children how to run all the various pieces of audio visual equipment used in the library. Michele Leary assisted Elaine in teaching this course.

Someone that we haven't seen much of this summer, but we want to make a point of mentioning, is Jennifer Rushton. Jennifer is our volunteer extraordinaire. She was invaluable throughout the last school year in helping in the children's room wherever she was needed. Jane Bergeron is our other "can't do without" volunteer who keeps things going when Elaine is busy with story hour programs during the school year.

We would feel bad if we didn't tell folks about our Neighborhood Youth Corp worker, Gina Nelson. Gina worked in the children's room this summer. She was Elaine's right hand person and helped her catch her breath many a time in between rushes. Gina is both a hard worker and a nice person to have around.

All the people mentioned above are just the tip of the iceberg. There's a great many more that lend a hand or give us that all important pat on the back that helps us go the extra mile. We would like to thank all these people for their invaluable help this summer and throughout the year. It would be impossible without each and every one.

For anyone who would like to become part of the team of the Millbury Public Library, just call the library at 865-1181 or stop by the library at 128 Elm Street.

PLANNING from Page 5

When Zingerelli began to describe the issue of drainage, William Dodge of 82 Grafton Street, an abutter to the proposed development, expressed concerns regarding the potential impact to the existing wetlands in the area. Dodge presented photographs taken last spring showing large areas of flooded land adjacent to his property. He again expressed his concern that any changes in this area may cause his property to be flooded. Zingerelli stated that he was unaware of this problem because the land topology data used was taken from aerial photographs. He added that, while aerial photography methods are very accurate, wetlands can be missed due to dense foliage. Nelson stated that input from a botanist would be required in order to determine the extent and nature of the wetlands.

Bob Graves, Roger Moore, and Edwin Morin, all abutters, joined Dodge in expressing their concerns over the potential impact construction of the development would have on the wetland and water flow conditions in the area. Nelson stated that, as the plan is refined, the issue will be discussed at future planning board meetings. He also added that the planning board's responsibility was to determine proper drainage and roadway construction and that concerns relative to wetlands would fall under the jurisdiction of the Conservation Commission.

Board member, Terry Burke Dotson, expressed an interest in walking the proposed area to get a first hand idea of the abutters' concerns. A tour of the area was scheduled for Saturday, August 22, at 10:30 a.m., and will leave from Roger Moore's residence at 98 Grafton Street.

– At 9:50, the Board voted unanimously to accept a plan by Peter Little to develop a 3 lot subdivision off of Grafton Street. The plan was accepted with several waivers.

– During the discussion of the planners update, Nelson stated that the Board of Selectmen had expressed an interest in updating the town's Master Plan. Nelson explained that the Master Plan was last updated in 1964 and is a comprehensive plan, determining current and future growth and the direction of development in Millbury. He stated that, while he has started to look into some of the issues, a lot remains to be done. Updating the Master Plan is a very time consuming and expensive task. Input from the various town boards is required to scope what is needed in the Master Plan. Nelson added that all this would have to occur before bringing the issue up for a town meeting vote to appropriate the money to hire professional consultants to actually update the master plan.

– At 10:00 p.m. the board adjourned to move into Executive Session.

Film Night For Expectant Couples

WORCESTER. Film Night will be held on Thursday, August 27, at 7:00 p.m. in the Basement Conference Room of St. Vincent Hospital, 25 Winthrop St., Worcester.

Film Night enables expectant couples to observe actual birth experiences with an instructor available to answer questions following each film. Both vaginal and Cesarean birth films are shown.

Film Night is free of charge, open to the public, and no registration is necessary. For more information, call C.E.A. at 791–7229.

The Childbirth Education Association of Central Mass., Inc., is a non–profit organization dedicated to serving the community in all aspects of family–centered maternity and pediatric care.

Sutton Historical Society Sponsors Flea Market and Bake Sale

The Sutton Historical Society will hold a flea market and bake sale on Monday, September 7, from 8:00 a.m. to 2:00 p.m. at the Blacksmith Shop, Sutton Center.

Space is available for $10.00. For information and reservations, call Ruth Putnam at 865–5055, or Dan Griffith at 476–7900.

What's the Difference?

By Pat O'Leary & Larry Ham

HOW TO PLAY: The answers to the two clues rhyme and the beginning consonant sounds are switched. For example: What's the difference between a neckwear fastener and a metal pan for baked desserts? One is a TIE PIN and the other is a PIE TIN. Sound counts, not spelling.

1. A mallard on a swamp and a dollar on a canine?
   A [ ][ ][ ][ ] on a [ ][ ][ ] and a
   [ ][ ][ ][ ] on a [ ][ ][ ]
2. An enduring popular style and a hunger-striking boy?
   A [ ][ ][ ][ ][ ][ ][ ][ ][ ] and a
   [ ][ ][ ][ ][ ][ ][ ][ ][ ]
3. A household animal's outlook and an animal doctor's church bench?
   A [ ][ ][ ][ ][ ][ ][ ][ ] and a
   [ ][ ][ ][ ][ ][ ][ ][ ]
4. Contaminated pod vegetables and colored golf-ball holders?
   [ ][ ][ ][ ][ ][ ][ ][ ][ ][ ] and
   [ ][ ][ ][ ][ ][ ][ ][ ][ ][ ]

12-9

ANSWERS: 1. A duck on a bog and a buck on a dog. 2. A lasting fad and a fleeting fad. 3. A pet's view and a vet's pew. 4. Tainted peas and painted jade.

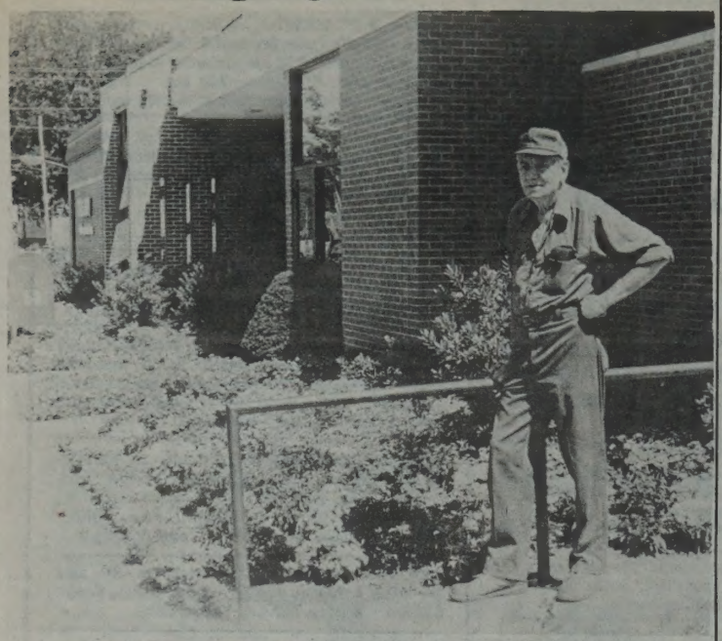
Landscaping Enhances Area



A year ago, we received a note from a resident of the Main/Canal St. area asking us to highlight the beautiful landscaping surrounding the Millbury Credit Union. While we are a little late in doing so, the beauty has not diminished since that request. Millbury resident, Ernie Tarbox (pictured above), exhibits his handiwork which beautifies not only the grounds of the Millbury Credit Union but enhances the whole Main/Canal St. intersection. Ernie has been a horticulturist since 1946. Thirty six hundred begonias, petunias, marigolds, dahlias, dianthus, and other varieties of plants provide a spectacle of color which delight not only the patrons of the bank but also all who pass by.

Prize Winners Announced

Winners of the Rix Super Drug Grand Opening Drawing are presented their prizes by Set-up Manager, Claudia Taylor (pictured second from the left) as store manager, Mary Fontaine (far left) looks on. Millbury residents, Donald Nolen (second from the right) won the 10 speed bicycle, Roger Morin (not pictured) won the inflatable raft, and Theresa Parella (far right) won the patio umbrella.
